

# INTERPROFESSIONAL EXERTIONAL HEAT ILLNESS

*Conference Partnership with UATA*

Join a full-day interprofessional training that brings together Athletic Trainers, EMS, and Osteopathic Medicine students to address Exertional Heat Illness — from on-field recognition to emergency care. Includes expert presentations, a multidisciplinary panel, live simulation, and debrief.

Saturday, December 6

**9:30 AM – 3:30 PM**

Noorda College of  
Osteopathic Medicine

## SCHEDULE HIGHLIGHTS

|                                                                                             |                                                                                                                                                                                  |
